Denied the purchase of cold and allergy medication?

As you may be aware, beginning in 2005 Federal and State laws began requiring certain cold and allergy medications to be more strictly regulated. Sales of these medications are now monitored to help stop components of these medications from being diverted into the illicit manufacturing of methamphetamine and other dangerous drugs.

If you have attempted to purchase one of these regulated cold and allergy medications and were unable to do so, please follow the instructions below to see a summary of your purchase history along with applicable Federal, State and local laws.

Enter your transaction information:
